Water Blended Dual Color Double Selvage

Features

Six Panel "Frank the Net" Design

The panels are cut to exact size in length and width based on the legendary custom design of Frank the Net with an extra 6" of netting sewn in to allow Morada nets to achieve more spread. When compared to other nets Morada achieves an extra 8-12" of spread.

Lead Weights

1.60 lb. per ft. of lead. Small marble weights tied at exact measurements ensures net opens and closes uniformly, no lost bait. Long weights tied on large mesh (1", 5/8") ensures no tangles. Super fast sink rate.

Netting

Morada netting combines strength and softness to find the perfect balance. Constructed out of a premium high grade monofilament. Soft netting fits nicely in one hand when net is fully loaded with a fast sink rate. Strong netting rated to pull in large bait loads.

Lead Line

Tightly woven with color that blends with the water. Knotted together and crimped to make sure lead line holds together. Tied with a secondary lead line interwoven for added strength and minimal wear at stress points.

Double Selvage

Beautiful water blended dual color double selvage - 3 rows at horn and lead line for ultimate strength at stress points.

Horn & Swivel

Horn made to correct size to prevent losing bait but large enough for easy movement of braille lines for ultimate spread. Very strong saltwater quality bronzed swivel rated to pull in full bait loads.

Braille Lines & Morada Tubing Braille Divider

Premium mono strong braille lines tied every 25" for balanced performance when closed. Minimizes loss of bait and improves net closing. Unique to Morada brailles are divided with a tubing for easy separation and less tangles.
